

ACADEMIC'S HEAD'S MESSAGE

CONGRATULATIONS TO OUR EDITORIAL BOARD!

After days of hard work, it is finally here! Our very own DBSK NEWSLETTER!

I appreciate the enthusiasm of our Principal, Mr. R.K. Moses who initiated this project.

Our students are super talented and we endeavour, through this newsletter to share their successes with our readers. We hope that it will keep you informed of all the interesting events, competitions and co-curricular activities that are being organized and are an intimate part of the DBSK experience.

This newsletter, besides being a means to connect with our parents, students and well-wishers, is also aimed at providing an opportunity for our students to hone their writing skills. Much goes into its production. Our budding photographers have been busy clicking away! Our Computer experts were typing at a frantic speed! Creative student artists were engrossed in planning the layout and bringing that special artistic touch into focus. And then, we cannot forget our graphic virtuosos who were engaged in editing photos and giving our newsletter its final form.

Dear students, we look forward to seeing you sending in your original thoughts, articles, poems, cartoons and art work. SO, LIGHT UP THE POWER OF YOUR CREATIVITY AND LET DBSK SHINE!

I wish the Principal and the Editorial Board every success in this venture.

SUMMER CAMP

Summer camp is a special camp that is organized in the summer season for children and teens. Also, the students come together to have fun and learn new things. These help children to try new adventures away from home in a safe environment. Besides, during summer camp many children make new friends and develop self-confidence and social skills.

Summer camp helps children to socialize freely with anyone. They also get the opportunity to perform

Several activities like painting, dancing, drawing, singing, etc. Furthermore, they share space with each other and work in teams. Thus they develop a social skills.

It was to the purpose that a fifteen days summer camp was organized in Don Bosco School Kharagpur, in the month of March. After two years of the lockdown period it was a splashy surprise in our new swimming pool and an energizing start up for the upcoming offline session.

PREP GRADUATION DAY 2021-22

Graduation day is one of the most important milestone in the student's life. It was the day when they received the certificates upon completion of their kindergarten. This grand day was celebrated on 31st March 2022.

CONGRATULATIONS

FIRST DAY AT SCHOOL, AMID THE PANDEMIC Both parents and children are happy to be back at school and do not wish to return to distance learning. The start of the school seemed more overwhelming than ever before. One could observe the mixed feelings of excitement, joy and confusion among the students, parents and teachers at schools. Early morning on the first day of school, students began gathering in the park to play. While it is not mandatory for the students to wear masks, many of them including the youngest among them were voluntary covering their faces. After the many weeks of distance learning which was challenging for children, parents and teachers alike, the willingness to go back to normal learning processes is now demonstrably high; every one displays a readiness to comply with the new safety regulations set by the government.

SCHOOL BUSES

School buses are the most preferred and frequently used transportation system of commute for the students. Don Bosco School Kharagpur feels happy to announce the arrival of its own FLEET OF NEW BUSES.

MORNING ASSEMBLY

Morning Assembly is a time of peace and quietness and it is time when everyone gathers at one place and joins hands to praise God for providing us with a whole new day. The Morning Assembly is very interesting with The LORD's Prayer, prayer song followed by Thematic Presentation and different activities climaxing with India's National Anthem. Assembly is planned with activities that syncs with the Theory of Multiple Intelligence.

Multiple intelligences refers to a theory describing the different ways students learn and acquire information. These multiple intelligences range from the use of words, numbers, pictures and music, to the importance of social interactions, introspection, physical movement and being in tune with nature.

TEACHERS TRAINING AND WORKSHOP

When it comes to the world of knowledge, teachers are the torchbearers in showing us the path to the future by means of proper guidance. A good teacher knows the proper methods to teach and guide students in the right direction, as well as understanding the theoretical and conceptual knowledge of the subject they teach. Teachers are valuable assets of modern society and develop the future of the next generation. However, there is a well-documented shortage of quality teachers across educational institutions in the country. The best way to address this shortage is by having teachers attending training programs, with the aim of developing them into capable teachers of the future. Before the reopening of School after summer vacation, the teachers underwent a five days an in-house Training & Workshop conducted by the Principal. The training was held from morning 9:00 am to afternoon 3:00 pm. Teachers were trained on Multiple Intelligences (MI), Blooms Taxonomy, Use of Electronic Content (by EXTRA MARKS), School ERP use, Team Building, Games and many other exciting sessions.
